

# Internal Business Audit

Positions are available in all regions: Americas, Europe and Asia Pacific

The global Internal Business Audit team performs audits covering all BlackRock business units, including investment and asset management, risk management, operations, finance and legal & compliance.

## Our team is known for:

- Building confidence in the firm by acting as an independent evaluator of BlackRock's operations, processes and controls, advising and partnering with global businesses, and being a trusted source for the Board of Directors and senior leadership.
- Working with partners across the company to help verify their operations are working as intended to identify and help the business manage the risks inherent in their operations and to assure that the controls built into our processes are working accurately and optimally
- The diversity of our skills, expertise and backgrounds, which extend across trading, sales, risk management, compliance, technology, finance, operations and other roles, and our focus on career development

## Our team partners with:

- **Internally:** Business leaders across all areas within BlackRock.
- **Externally:** We report our findings to the BlackRock, Inc. Board of Directors and Global Regulators.

## What will you do as an analyst?

- Engage with a diverse mix of BlackRock businesses to gain an understanding of each business' key processes, risks, controls and business objectives
- Perform testing of the design and effectiveness of the existing controls
- Partner with senior leaders to identify areas of improvement
- Participate in advisory projects that optimize new business and technology activities and processes
- Continuously engage with senior leaders across the firm to understand changes to their risks and operations

## What capabilities are we looking for?

- Relationship management
- Critical thinking
- Project management
- Analytical approach
