

BlackRock Founders Scholarship

A scholarship programme for students who have demonstrated leadership in creating and sustaining diverse, inclusive communities in the U.K.

In addition to a summer internship, candidates may also receive a merit award of £5,000.

BlackRock was founded 29 years ago by eight entrepreneurs who wanted to start a very different company. One that combined the best of a financial leader and a technology pioneer. And one that focused many diverse views on a singular purpose: making a difference to the lives of the parents and grandparents, the doctors and teachers who entrust us with their money – and their futures – every day.

Today, we've become the world's largest investment manager – with over \$5.7 trillion under management and many of the largest companies and governments around the globe turning to us with their biggest financial challenges.

We're looking for the future leaders of BlackRock who can help us take on those challenges and shape the years to come.

The story of our company's success rests not just with our eight founders, but with the thousands of talented professionals who have brought their ideas and energy to the Firm every day since. We're always looking for fresh perspectives and new ideas. That's why we're pleased to offer the BlackRock Founders Scholarship to help student leaders from underrepresented groups gain greater exposure to – and play an important part in shaping – our Firm and our industry.

Whatever you study, wherever you're from, whatever your background, there could be a place for you at BlackRock.
