

WCN e-letter for e-recruitment

Hampshire Local Government Partnership

Hampshire Local Government Partnership set up www.Hampshirejobs.org.uk to provide jobseekers with a holistic view of careers in Local Government in Hampshire. In a single place, jobseekers can view Local Authority jobs in Hampshire from 12 Local different Government Authorities.

Benefits to jobseekers include the ability to:

- Search for all jobs across all disciplines in all of the 12 participating authorities in one location.
- Set up job alerts for an individual or all authorities in one place thus enabling jobseekers to keep up to date job opportunities.
- Input application details only once for over 80% of application form fields across all authorities.
- Once entered this data is then automatically populated into any future applications.
- Jobseekers need only check the information rather than type it all again.
- Review the status and manage all their applications in one place
- Apply speculatively to an individual authority or simultaneously to several authorities.

- Hampshire Local Government Authority is much more than a jobs portal and delivers a wide range of benefits to the local authorities as well as job seekers. The single “multi-brand / multi-workflow” e-recruitment system fully enables independent and co-ordinated recruitment from attraction through to on-boarding.

In the first six months after implementation, Hampshire Local Government Partnership has already made savings of £280,000 across all 12 councils with an anticipated ROI of 240%! Internal employees also benefit from improved internal mobility and career progression across the whole Hampshire Local Authority Authorities region.

Should you wish more details on our solutions or would like to book a free demonstration, please call 0208 296 5908 or e-mail sales@wcn.co.uk.
